

As identified above, there will be a need to secure additional extra-help as necessary to handle an significant influx of customers by providing onsite outreach, traffic control and assist with material handling for an undetermined period of time.

3. **Continued closure of Eureka Recycling Center until COVID-19 threat has passed** – This alternative is discouraged as there is a significant demand for recycling services related to source-separated recyclable materials, appliances, e-wastes, flat screen tv's and the need to process collected materials from the Tip Floor.
